

Understanding School Bus Laws

When Following or Approaching a School Bus

- Be Prepared to Stop. Flashing yellow lights on the bus are activated 100 to 300 feet prior to the bus stopping to load and unload children.
- Drivers Must Stop and Remain Stopped when the red lights flash. Drivers should not proceed until the flashing red lights are turned off and the bus begins to move.
- Keep mindful of blind spots that exist for buses and students during loading and unloading.

Violations of these Laws: If stopped by an officer the penalty is \$570.00 and three points on your driving record.
